Cut and Paste Poetry

Cut and Paste Poetry is a collaging technique using found words and phrases cut from magazines and newspapers which when rearranged and reassembled create new text pieces. It is a liberating and playful way to explore creative writing and expressive language.

Preparation (to be done in advance if possible)

Using a range of source magazines and other printed material, cut out words and phrases making sure that there is a range of text sizes and typefaces. Parenting and women's lifestyle magazines are great for this.
